

2019 **ATV/ROV**

George Whitelock
George Whitelock

FARMING LIFE IS GREAT

LET'S KEEP IT THAT WAY!

Our land workers need transport that can cope with harsh local conditions. They need to keep going when the chips are down, but they also appreciate convenience and comfort.

Our ambassadors such as rugby legend George Whitelock recognise the real world tough dependability and capability of Yamaha utility vehicles.

He also knows the importance of safety on the land for not only themselves but for family, friends and neighbours. ATV/ROV industry safety message - always wear a helmet, never carry a passenger on a single seat ATV and never allow children to ride adult size ATVs.

Farming life is great. So let's keep it that way.

Enjoy it on a Yamaha

UTILITY ATV

GRIZZLY 700

Yamaha's rugged Grizzly has earned a solid reputation for being the world's toughest ATV. This class-leading four wheeler sports the proven 686cc DOHC engine that offers more torque for work... and play. Its compact bodywork runs LED lights and a halogen work light for powerful illumination. The new Grizzly range also features a new easy read multifunction display.

Grizzly – powerful, versatile, comfortable.

KEY FEATURES

Yamaha Ultramatic® CVT automatic transmission

Yamaha On-Command® 2WD, 4WD, 4WD with Diff-lock

Independent long-travel adjustable suspension

All wheel disc brakes with twin-piston calipers

Tough Maxxis 26-inch tyres

Large digital display and three storage compartments

Yamaha Electric Power Steering (EPS)

Professional rider depicted on a closed course.

Steel Blue

GRIZZLY 700 CAMO

Yamaha's tough Grizzly Camo glides over the harshest terrain with features aimed at the outdoorsman.

A torque-rich 686cc DOHC engine provides the power while front and back steel cargo racks carry home the bacon. LED lights and a halogen work light show the way when the sun goes down. Featuring Yamaha's Ultramatic® transmission and On-Command® drive system – together with Electric Power Steering – the Grizzly 700 Camo gives you class leading performance, style and functionality. All wrapped up in a hunting camo package.

KEY FEATURES

Yamaha Ultramatic® CVT automatic transmission

Yamaha On-Command® 2WD, 4WD, 4WD with Diff-lock

Independent long-travel adjustable suspension

Yamaha Electric Power Steering (EPS)

Black alloy wheels

Professional rider depicted on a closed course.

Camo

GRIZZLY 700 SE

Yamaha's new Grizzly SE features sporty refinements over the standard Grizzly and Camo. Such as new larger and more aggressive 27-inch mud tyres providing high traction, greater ground clearance and improved off road ability.

More comfort and confidence are offered with increased accessory capability – Grizzly SE now comes standard with a factory fitted WARN Pro Vantage 2500 lb winch in readiness for whatever challenge New Zealand bush delivers.

KEY FEATURES

Factory installed winch, SE graphics and cast alloy wheels

Maxxis 27-inch tyres

Yamaha Ultramatic® CVT automatic transmission

Yamaha On-Command® 2WD, 4WD, 4WD with Diff-lock

Independent long-travel adjustable suspension

Yamaha Electric Power Steering (EPS)

Professional rider depicted on a closed course.

Tactical Black

KODIAK 700

Designed for farmers, foresters and industrial users who need a tough utility vehicle for extreme conditions, the user-friendly Kodiak 700 delivers superior performance with outstanding value.

Powered by a fuel efficient 686cc engine – and featuring a compact chassis with a plush seat for day-long riding comfort – this tough workhorse can carry a 140kg payload plus rider and tow up to 600kg.

Kodiak – because work doesn't need to be a chore.

KEY FEATURES

New 686cc DOHC 4-stroke engine

Yamaha Ultramatic® CVT automatic transmission with all wheel engine braking

Yamaha On-Command® 2WD, 4WD, 4WD with Diff-lock

Front discs and sealed wet rear brake

Independent long-travel suspension

Tough four-ply 25-inch tyres,

Electric Power Steering (EPS) as standard

Professional rider depicted on a closed course.

Steel Blue

KODIAK 450

With high levels of comfort, control, confidence and convenience the fuel injected Kodiak 450 is a deadset farm favourite.

Its wide footprint and roomy riding position accommodates even larger riders comfortably while class leading handling mixes with a durable torque-rich 421cc fuel injected engine. Kodiak 450 comes with electric power steering (EPS) or without.

KEY FEATURES

Handlebar mounted work light (EPS model only)

Speed sensitive electric power steering (EPS model only)

Large full comfort seat

Push button 2WD/4WD

Wide track width and long travel suspension

Torque rich 421cc fuel injected engine with low vibration engine mounts

Pre-wired for easy winch installation

Tool free air filter access

Yamaha Ultramatic® CVT automatic transmission

Professional rider depicted on a closed course.

Steel Blue

GRIZZLY 350

Farmers love this robust ATV that makes molehills out of mountains. Available in easy-steer 2WD or full traction 4WD, the 350 is Yamaha's most compact ATV. The FA version features our On-Command® 2WD/4WD system that allows you to easily switch between modes.

With rear and front racks, the Grizzly 350 can carry loads up to 120kg. Economical with fuel, low in maintenance, the 350 is the packhorse of the ATV world – strong, tough and durable.

KEY FEATURES

348cc air/oil-cooled 4-stroke engine

Fully automatic Ultramatic® transmission

120kg cargo racks

Rear sealed drum brake

Fuel-efficient, low maintenance

500kg towing capacity

Professional rider depicted on a closed course.

Steel Blue

Professional rider depicted on a closed course.

FUN ATV

GRIZZLY 90

NEW MODEL

Yamaha offers the all-new Grizzly 90 for smaller adventure-seekers.

Scaled down but not scaled back, the new Grizzly 90 takes cues from the top-performing big bore Grizzly. The result is accessible, confidence-inspiring performance with Grizzly family style.

With convenient features like electric-start, a large comfortable seat, front/rear racks and aggressive styling, the new Grizzly 90 is the perfect machine for riders 10 years and older who want to REALise Adventure with family and friends.

Now you can have one just like dad's.

KEY FEATURES

Confidence-Inspiring 90cc engine with electric start

Big mud deflecting guards

Tool-less quick-access air filter element

Front and rear drum brakes

Integrated cargo racks

Terrain grabbing 19-inch front and 18-inch rear tyres

Professional rider depicted on a closed course.

Steel Blue

RAPTOR 90

The YFM90R may be small in size, but it's equipped with several features found on larger Yamaha models – including single A-arm independent front suspension, a rear disc brake, CVT transmission and electric start.

The YFM90R balances power with a range of features to give you total peace of mind. A simple CDI plugin adjusts engine power output to suit different riding abilities while a fully automated gearbox allows junior to concentrate on the track to build confidence.

KEY FEATURES

Fully automatic CVT transmission with reverse gear

Electric start

Parking brake

F/N/R gears

Low maintenance sealed drum brakes

White model comes with 2 x sticker kits

Team Yamaha Blue & White

Yamaha White Fire

Professional rider depicted on a closed course.

YFZ50

With its compact body, simple controls and automatic 49cc engine, the YFZ50 is the perfect way to start out. Built for children between six and nine, this mini ATV is ready to provide hours of family fun.

Safety comes first, and the YFZ50 has a range of features that give parents a high degree of control. Speed can be limited by the throttle screw and rev limiter switch – and a lanyard attached to a tether switch can cut the engine instantly. With its YFZ450R racer-inspired styling, this mini ATV looks set to be at the top of your kid's wish list...

KEY FEATURES

Throttle screw for parental speed adjustment

Switchable limiter restricts max engine speed

Lanyard with cut-out for total parental control

Low-maintenance 49cc 4-stroke air-cooled engine

Smooth CVT automatic V-belt transmission

Professional rider depicted on a closed course.

Team Yamaha
Blue & White

SPORT ATV

Professional rider depicted on a closed course.

RAPTOR 700

Once you've ridden the YFM700R there is no turning back. This Dakar winning racer has mind-bending 686cc 4-stroke engine power and supreme handling for the ultimate buzz on all sorts of terrain.

High levels of comfort are spec'd with a plush rear shock – and large 22-inch front tyres give you precise steering and added control. Because when you take your fun seriously, you need the ultimate performer.

KEY FEATURES

High-tech race-bred 686cc fuel-injected engine

Strong, lightweight hybrid aluminium/steel frame

Plush rear shock for high levels of comfort and control

Low-pressure gas front shocks for easy adjustment

Large 22-inch front tyres for comfort and control

Push-button electric start for convenience

Dakar
Winner

Team
Yamaha Blue

Professional rider depicted on a closed course.

YFZ450R

YFZ450R's sharp-handling chassis and ultra-responsive engine have made it today's racing ATV of choice.

A race-bred assist and slipper clutch gives more precise control over corner entry speed for quicker lap times – while a high performance engine delivers superfast throttle response and hard-hitting high rpm power for holeshot-winning performance.

Sharp-designed bodywork gives the rider space to shift bodyweight during cornering or hard acceleration.

YFZ450R – the first and only choice for ATV racers.

KEY FEATURES

High compression engine for high performance

Hybrid chassis engineering

Lightweight piggyback shocks for precise handling

Easy operation thumb lever

UTILITY ROV

VIKING VI

Need more people for the job? Check out Viking VI that's designed to access remote areas carrying up to six in comfort.

Both front and rear centre seats are offset and all have three-point seatbelts allowing for unmatched middle passenger comfort and convenience.

As with the three-seater, Viking VI runs our Ultramatic® drive system with 2WD, 4WD and 4WD with Diff-lock, and is powered by a high-torque 686cc engine.

Get six of the best...

KEY FEATURES

Comfortable and spacious 6-seat layout

Powerful, high-torque 686cc single-cylinder engine

Switchable On-Command® drive system

2WD, 4WD and 4WD with Diff-lock

Electric Power Steering (EPS) for lighter handling

Walk-through floor for easy access from both sides

Professional driver depicted on a closed course.

Steel
Blue

VIKING

Viking is equipped with our unique Ultramatic® drive system with On Command® 2WD, 4WD and 4WD Diff Lock, and downhill engine braking plus a torquey donk that pulls like a mule.

Viking enhancements include automotive-style two-stage door latches, a parking brake warning buzzer, a more rigid chassis and an engine-mounted torque rod for a more relaxing ride at any engine RPM.

A reinforced rear steel cargo bed incorporates mounting points on the bed rails and a rubber cargo bed mat that reduces sound and vibration.

KEY FEATURES

Powerful, high-torque 686cc single-cylinder engine

Switchable On-Command® drive system

2WD, 4WD and 4WD with Diff-lock

Electric Power Steering (EPS) for lighter handling

WOLVERINE X4

The all new Wolverine X4 SE brings trail exploring capability to the whole family with its four-seat layout and strong yet smooth power delivery.

Featuring a new 847cc twin cylinder powerplant with drive-by-wire throttle, the Wolverine X4 SE shares performance technology with Yamaha's class-leading sports bikes, for thrilling power on every ride.

Rear suspension features self-levelling shocks – which means automatic adjustment for changes in vehicle and passenger loads to ensure ideal chassis performance with every ride.

X4 – The ultimate outdoor adventure partner with work-ready functionality.

KEY FEATURES

Smooth and powerful 847cc twin-cylinder powerplant

Speed Management System

Advanced self-levelling rear shocks

Ultra-reliable Ultramatic® CVT with On-Command® 2WD/4WD/4WD Diff-lock

Professional driver depicted on a closed course.

Matt Silver

WOLVERINE X2

The all new Wolverine X2 R Spec provides a new level of capability, comfort and confidence with superior performance in tight technical terrain.

Power is provided by the smooth 847cc twin cylinder engine and comfort by high back seating for two full-sized adults with plenty of legroom.

Suspension features high level KYB piggy back shocks that deliver optimum ride comfort at high or low speeds.

X2 – Makes daily chores fun.

KEY FEATURES

Compact and nimble chassis and reduced turning circle

Smooth and powerful 847cc twin-cylinder powerplant

Speed Management System

Large capacity rear tip tray with a single lever tail gate

KYB piggyback gas shocks

Ultra-reliable Ultramatic® CVT with On-Command® 2WD/4WD/4WD Diff-lock

Alpine White

Professional rider depicted on a closed course.

SPORT ROV

YXZ1000R SS SE

NEW MODEL

Yamaha has taken the YXZ1000R SS SE paddle shift to the next level with enhancements that improve performance and reliability. Larger terrain ripping tyres and a rear mounted radiator means you can go harder for longer.

The SS SE model comes with all the features and benefits of the standard YXZ but adds an improved roll cage design, beadlock rims, and more accessory integration. Plus it's now turbo ready, fitted with race performance conrods.

YXZ1000R SS SE. A whole new level.

KEY FEATURES

GYTR turbo ready, torque rich 3-cylinder 998cc DOHC engine

Paddle shift 5-speed transmission

High mounted rear radiator

Launch control and auto down shift function

Fox 2.5 Podium X2 shocks brings a whole new level of adjustability

On-Command® 2WD/4WD/4WD Diff-lock

Professional rider depicted on a closed course.
Image shows model fitted with genuine accessories.

Team Yamaha
Blue

YXZ1000R

Step up to the next level with the ultimate pure sports ROV.

Powered by a torque-rich 998cc 3-cylinder engine and featuring a high-tech chassis with long-travel suspension, the aggressive Yamaha YXZ1000R leads the class.

Climb into the fighter-pilot style cockpit, slip into the ergonomic bucket seat, and prepare yourself for supersport acceleration with incredible handling and terrain-conquering performance.

With advanced specification including a five-speed sequential shift gearbox and outstanding performance, this supersport ROV is the ultimate thrill machine.

KEY FEATURES

First-in-class 3-cylinder 998cc DOHC engine

Rally-style sequential 5-speed transmission

On-Command® 2WD/4WD/4WD Diff-lock

Light and agile pure sports chassis with whoop taming geometry

Overfender Kits. Overfender kits are available for most ATVs. Constructed of a wide, tough and durable plastic and are designed to deflect trail debris, the overfenders provide a seamless and unified body line.

Cargo Boxes for Kodiak 700. Heavy-duty, durable cargo boxes allow you to take along your essentials. With 37L front capacity and 66L rear capacity, they have all your storage needs met. Front and rear cargo boxes sold separately.

Pro Vantage Winch and Mounting Kit for Kodiak 700. A real workhorse. Built with premium components and 2500lb of pulling capacity makes it ideal for recovering stuck ATVs or pulling heavy loads on the work site. Sold separately.

Cargo Bed Box for Wolverine. Approx 18L of cargo capacity, constructed of tough, linear, low-density polyethylene. It securely carries what you need when venturing out in your Wolverine.

Spare Tyre Mount for Wolverine. Allows the transport of a spare tyre and wheel for long rides or rough terrain to give you peace of mind that you've got a back-up if needed.

Rear Window for Wolverine. Made of SurLast all-weather, mildew & fade-resistant fabric with a clear 20-gauge polished vinyl window. Provides years of added protection from wind, rain and debris. Black or Camo.

A-Arm Skid Plates for Wolverine. Provides lightweight, durable protection to lower A-Arms. Available for both front and rear A-Arms. Sold separately.

Folding Windshield for YXZ1000R. Provides protection and versatility for changing weather conditions thanks to its convenient folding design. Fold the hard-coated polycarbonate panels up, down, or simply tip-out.

YFZ450R Nerf Bars. Combines the nerf bars, footwells, and foot pegs into one accessory. Extruded joint clamp helps make installation and alignment a snap. Durable black nylon webbing in nerf bar and footwell areas.

Heavy Duty Front Brush Guard for Kodiak 700. This rugged Brush Guard is designed to provide additional protection while you're out on the trail.

Sub-Woofers for Wolverine. Adding ground pounding bass to your Wolverine this sub-woofer is a simple plug and play expansion to the accessory audio options available.

YXZ Turbo. Designed for the no-limits driver who wants to pull more power from their YXZ. Increased adrenalin when you hit the gas.

Rear Cargo Box for YXZ1000R. Rear Cargo Box with 127L capacity made from tough, linear, low-density polyethylene. It is water and dust-resistant with a lockable lid and many other features. Ideal for storing all your essentials.

Front Brush Guard for Wolverine X2 or X4. A Front Brush Guard offers excellent protection from brush and trail obstacles while blending perfectly into the style of the front end.

MX apparel is made from high quality material and comes in a range of stylish matching colours. The MX range consists of: Pants, Jersey, Gloves, Hat and Enduro Jacket all with a matching design.

FEATURES AND BENEFITS

Sequential five speed shift **Found on: YXZ1000R**

Auto drive is the best system for utility vehicles, but sport requires a different approach. Which is why we fitted the first true sports ROV with a sequential five speed gearbox – other vehicles in this class use automatic CVT transmission. Using a clutch and gearbox has several advantages for the racer – there is a more direct connection and driver involvement, a gearbox has less power drain than an auto system and a gearbox eliminates a potentially fragile belt drive.

Self-Levelling Suspension **Found on: Wolverine X4**

The Wolverine X4 SE features self-levelling rear shocks that automatically adjust to changes in vehicle load. Not only does this system maintain ideal chassis geometry and eliminate the need to adjust shock preload, the system is completely self-contained and requires no heavy air compressors or electric motors. The motion of the vehicle itself pressurises the shock's internal valving, for an ideal chassis set-up on every ride.

Speed sensitive EPS – Electric Power Steering **Found on: All EPS models**

Yamaha speed sensitive EPS system greatly reduces the physical effort of steering while also dampening any steering kickback from bumps and rocks. The system is driven by a dedicated ECU, that measures steering input force versus tyre resistance and vehicle speed, which then provides appropriate power to the steering column through an electric motor. The process takes only milliseconds to calculate and engage, so the rider never knows that the EPS is activated, except to feel the comfort in controlling the machine. It also greatly reduces the torque needed to steer the ATV when in 4-wheel full Diff-lock. EPS is an option on models above 450cc.

Foam oil filter **Found on: All utility ATVs and ROVs**

In order to combat harsh New Zealand conditions and to keep your engine in prime condition, we fit foam oil filters to all our ATV and ROV products in NZ.

Multi-function digital data display **Found on: Top of range Kodiak, large capacity Grizzlies and ROVs**

Yamaha's comprehensive LCD display provides full information about speed and transmission mode, with trip and hour meter included to monitor your journey.

All new ROV twin cylinder engine technology **Found on: Wolverine X2 and X4**

Providing the category's best balance of power and control, Wolverine X2 features Yamaha's 847cc in-line twin cylinder engine with Ultramatic® automatic transmission. The smoothest and quietest engine in its class features a fly-by-wire electronic throttle and high-output alternator married to the durable and reliable Ultramatic transmission with super low-end torque and powerful driving force for conquering anything from challenging terrain and tight, technical trails to tough chores.

MAKE YOUR DREAM A REALITY

Yamaha Motor Finance. Ltd. (YMF) is a 100% owned subsidiary of Yamaha Motor Ltd that has been established to give Yamaha customers access to specially tailored finance packages on Yamaha's huge range of products.

A YMF loan is simple and convenient. Applications can be completed in person at one of Yamaha's nationwide dealerships or pre-approved online through the Yamaha website.

Apart from competitive repayments on loans, you also benefit from the following:

- 🔒 Fixed interest rate and repayment
- 🔄 Flexible loan terms available from 2 to 5 years
- 🚫 No monthly account keeping fee
- 👤 Ability to finance accessories and approved insurances
- ✅ Simple and convenient

For further information on finance packages contact your local Yamaha dealer, or call YMF Direct Sales on 0800 777 123 (NZ) or visit www.ymf.co.nz

Yamaha Motorcycle Insurance (YMI) is a factory backed product that offers a variety of unique policy features and benefits exclusive to Yamaha owners.

YMI is the ultimate in protection offering competitive rates along with a hassle free claims process.

YMI Features & Benefits:

- 🔧 Only genuine Yamaha parts used on repairs
- 🔄 Three years new for old replacement on your new Yamaha

For further information on insurance contact YMI today on 0800 664 678 (NZ) or visit or www.ymia.co.nz

The information provided by YMF in this brochure is of a general nature and for information only. Before making a decision about finance options featured in this brochure, you should consult with your independent legal, taxation and financial advisor, who can advise you which finance arrangement will best suit your individual circumstances, objectives and personal or commercial needs. Note: Loan applications are subject to YMF's normal lending approval process and credit is subject to approval. Credit criteria, fees and charges, terms and conditions apply. Please refer to our General Information section for more details about our loan products, fees, charges and standard loan terms and conditions. A copy of full terms and conditions is also available on request and will be included with the loan contract and schedule. Always remember to review your Yamaha Motorcycle Owner's Manual before you ride. Before each ride, take time to check all your equipment. Always wear an approved helmet, eye protection, long-sleeved shirt, long trousers, gloves and boots. And always be sure your bike is in first-class condition before riding. Keep it well-maintained and always outfitted in accordance with state and local laws. Every motorcycle rider should be aware of the limits of his or her skills, experience and abilities and ride accordingly. Beginners should be extremely cautious and allow extra time and distance for manoeuvring and braking. All riders should ride well within the limits of their abilities, never beyond them. Always ride in a responsible manner, respecting the environment as well as all state and local laws. Ride responsibly, and remember, motorcycle riders, as all motorists, must practice defensive driving. Do not drink and ride. It is illegal and dangerous. Yamaha encourages you to ride safely and respect the environment. Specifications and colour options are subject to change without notice, in accordance with national regulations and legislations.
